May 17: Macro Photography with Dodd Camera

Macro photography is the art of taking close-up pictures that reveal details which cannot be seen with the naked eye. For example, while we can see the fly on the wall, our eyes aren't equipped to make out the fine details of the hairs on its face. Deb Ward from Dodd Camera will talk about how to create macro photography with your digital camera.

June 21: Wikis

You may have already heard about Wikipedia, the world's largest encyclopedia? Did you know that you can edit and create content for it? Wiki is based on a Hawaiian word "wiki-wiki," which means quick-quick. A wiki on the internet allows content creation and collaborative editing by the users of a site.

July 19: Facebook & You

Whether you are already on Facebook or just curious, come learn how you can use this tool to stay connected with your family and friends in the Digital World. Become an educated Facebook user so this tool can complement your real world people networking & socialization.

August 16: More on Cyber Crime with Randy Kimbro

Join Randy Kimbro, FBI Citizens Academy, to learn more about Cyber Crime. Randy ran out of time during our February CBS, so he will be back to fill in more about how to stay safe in the digital world. Bring your questions! There will be a question and answer session.
